

CANTEEN MANAGEMENT SYSTEM (CMS)

Many organizations provide canteen facility to its employees, but proper management of meals per employee is a cumbersome task. The software design provides a user friendly system that facilitates quick and efficient operation to cover larger section of employees for an organization. The software also provides paperless and cashless based solutions to operate multiple counters simultaneously in a closed environment. This system is also compatible in an environment where multiple caterers operate in a closed environment or at multiple locations.

FEATURES:

- Network based solutions to handle multiple counters in closed environment Easy swapping system on counter with (Proximity, smartcard, thumb scanning)
- Easy Coupon printing on employee ID card scanning.
- Maintains employee database, shift wise and contractor/subcontractor wise to get estimation for food quantity.
- Daily menu creation by the caterer and also option can be added of request special items.
- Advance information on the usage of the canteen facilities by the employees on any particular day or shift can be notified to the caterers. (For event)
- Special rules & regulation can also be integrated within system. E.g. ID card

BENEFITS

- CMS is independent of the technology used for identification of employees.
- Provides cashless and paperless transactions.
- Provides a choice to the employee on the mode of operation.
- Accounting is made easier between the company and the caterers.
- Reconciliation between caterers is made easy.
- Provides salary-debit facility for employees in credit scheme, for canteen facilities used.
- Provides a fast and efficient service.
- Reduces wastage.
